

We're putting in a new bridge over the weekend

Over the weekend of 28-30 September six arches of the old viaduct between Westferry and West India Quay will be removed, and a new bridge put in, with the track ready for service on Monday morning. This enormous engineering task is part of the Beckton extension programme and is required to enable the construction of the Limehouse Link Road.

How the work will affect passengers

From 7.00 pm Friday 28 September to 5.00 am Monday 1st October

Buses will replace trains on the Tower Gateway to Island Gardens branch from 7.00 pm on Friday. The Stratford to Island Gardens service will continue to operate trains until 9.30pm on Friday 28th September when the normal bus service will replace the train service.

Between 7.00 pm and 9.30 pm on Friday 28th September the interchange between the Stratford/Island Gardens train service and the Tower Gateway branch bus service will be at South Quay Station where the Tower Gateway bus will terminate.

Unforeseen problems could affect services on Monday 1st October and Tuesday 2nd October therefore contingency plans have been made to operate the DLR bus service if necessary

Please see overleaf for details.
